The Sinar 35 mm Integration

Your Solution Provider  
for Creative Photography

## The Professional Extension for 35 mm Cameras

The Sinar p-slr was designed especially for photographers who wish to take advantage of the unique advantages and quality characteristics of a Sinar view camera in conjunction with their single lens reflex cameras. Exact control of perspective and selective sharpness, the most important creative tools in photography, are set and evaluated precisely on a view camera.

In addition, this meticulously thought-out solution offers the benefit of a distinct increase in quality by using high-resolution Sinaron lenses designed specifically for digital imaging.

## A View Camera for Digital slr Cameras

Whether Leica, Cannon or Nikon - Thanks to precise adapters, the Sinar p-slr can be used with all of these digital cameras. The Quick Clamping Adapter that is part of scope of delivery allows quick changes from vertical to horizontal format and vice versa with a flick of a wrist.

The Sinar p-slr corresponds to the Sinar philosophy to provide modular systems that always accommodate with the latest trends of the market.

**Cable Tension Relief**

**The Centering Aid**

### The Centering Aid - for Best Optical Quality

A positioning- and centering aid serves to align the digital SLR camera precisely on the optical axis. This procedure ensures that the sensor of the digital camera is positioned perfectly, both vertically and horizontally. In this case the full benefit of the lenses and of the view camera can be used for efficient professional work.

### Cable Tension Relief

When the single lens reflex camera is connected to the computer via USB or FireWire, the integrated cable strain relief provides safety during production and protects the USB or FireWire sockets on the camera.

### Quick Snap Adapter

The Sinar p-slr can be used with digital SLR cameras from Leica, Canon and Nikon. With the Quick Clamping Adapter that is supplied with the Sinar p-slr, the change from vertical to horizontal format can be performed within seconds and with only a few hand movements.

## Flexibility and Creativity

Sinar is the leader in manufacturing of precision view cameras for more than 60 years. The Sinar p-slr corresponds to the highest camera precision “Made in Switzerland”, including ergonomic design and unlimited creative freedom. The human hand serves as reference for size, shape and handiness, so that it is easy to operate accurately and comfortably, even in darkened rooms. Lenses and bellows can be changed quickly and safely by mere finger pressure on practice-based locking mechanism. External styling elements grant the Sinar p-slr a trendy appearance.

Self-locking fine focusing gears guarantee highly accurate adjustments – the camera remains exactly in the adjusted position. All relevant elements for composing the image are available, like swings and tilts of the front and rear standard (Scheimpflug), as well as horizontal and vertical shifts.

## ARGUMENTS THAT ARE CONVINCING

- Unlimited creative freedom for image composition
- Usage of existing lenses with Copal shutters
- Universal application of available SLR cameras
- Cost-saving by use of existing Sinar view camera as digital solution
- Quick change from vertical to horizontal format
- Adaptations for 35 mm digital SLR cameras from Leica, Canon and Nikon (Leica available in 2013)
- Unique capability of adding live image by means of a supplementary monitor
- Enhanced quality with the use of view camera lenses
- Strain relief for USB and power supply cables
- The use of high-resolution professional lenses focal lengths from 90 mm to 210 mm and Schneider PC 28mm
- Versatile assortment of professional accessories, such as bellows lens hoods and filters

## Technical Data

Product	Catalog number	Description
Sinar p3-slr-N	491.83.010	Sinar p3 for Nikon SLR cameras, without Lens and Nikon camera
Sinar p3-slr-C	491.83.020	Sinar p3 for Canon SLR cameras, without Lens and Canon camera
Sinar Conversion Kit p3-slr-N	497.13.010	Mounting L-Bracket, Bellows 100 with Nikon Bayonet, Quick Clamping Adapter, Centering Aid
Sinar Conversion Kit p3-slr-C	497.13.020	Mounting L-Bracket, Bellows 100 with Canon Bayonet, Quick Clamping Adapter, Centering Aid
Sinar Conversion Kit p2-slr-N	497.13.030	Mounting L-Bracket, Bellows 4x5 with Nikon Bayonet, Quick Clamping Adapter, Centering Aid
Sinar Conversion Kit p2-slr-C	497.13.040	Mounting L-Bracket, Bellows 4x5 with Canon Bayonet, Quick Clamping Adapter, Centering Aid
Centering Aid for Nikon	556.73.010	Positioning and centering tool for Nikon
Centering Aid for Canon	556.73.020	Positioning and centering tool for Canon
Bellows p3-slr-N Standard	455.73.010	Bellows 100 with Nikon Bayonet (max. extension 16cm)
Bellows p3-slr-C Standard	455.73.020	Bellows 100 with Canon Bayonet (max. extension 16cm)
Bellows p2-slr-N Standard	455.76.010	Bellows 4x5 with Nikon Bayonet (max. extension 16cm)
Bellows p2-slr-C Standard	455.76.020	Bellows 4x5 with Canon Bayonet (max. extension 16cm)
Kit p3-slr Macro	454.12.010 + 437.63.000	Multipurpose Bellows 100 with Multipurpose Standard 100
Kit p2-slr Macro	454.11.000 + 437.61.000	Multipurpose Bellows 4x5" with Multipurpose Standard 4x5"
Quick Clamping Adapter	519.81.000	
Mounting L-Bracket	556.73.000	
Lens Shade	493.23.041	Lens Shade without lens adapter ring
